

Roche-Sponsored Satellite Symposium at the 7th Annual EAN *Virtual* Congress

Overcoming barriers in MS care: optimising treatment for patients

Sunday 20 June, 2021
13:45–14:45 (CEST)

Expert panel

Denise Bruen

University of Virginia Health System, USA

Frauke Zipp

University Medical Center Mainz, Germany

Gavin Giovannoni

*Barts and The London School of Medicine
and Dentistry, UK*

Ludwig Kappos

*University Hospital and University of Basel,
Switzerland*

Join us to discuss:

- Changes in approach to treatment strategies due to the COVID-19 pandemic
- Switching patients to high-efficacy therapies to combat disease progression
- Considerations regarding SARS-CoV-2 vaccination in the context of MS care
- Identifying long-term goals in people with MS to provide the optimal level of care

This Roche-sponsored event is intended for healthcare professionals (HCPs) outside of the US. Roche proactively tries to ensure medical education is as widely accessible as possible for HCPs all over the world.
